Facilities for E-content Development

Media Centre

KRGC Media Centre is a notable initiative launched by the institute in 2021 to capture the indelible moments of the institute and showcase them to the global community. It runs under the aegis of IT Cell, Computer Science and Home Science departments. The members of Media Center cell are ITC Coordinator, PRO, Coordinators of various clubs Videography, Photography, Literary, EBSB, ChemiClub, Heritage, Hansa Club etc. It acts as the nodal point for collecting and disseminating news about the events happening in the institute to Media sources. The main objective of the Media Center is to document in-house and external events to create a significant digital presence for the college on social media. It also records and manages the events, guest lectures and seminar from all the departments of the College, serves as the liaison between the institute and the consultants of the Social Media Management Team to enable them to publish it on the various social media platforms to ensure global reach for the college.

All the activities are done by students of the institute under the guidance of various clubs and departmental coordinators. The main role of the center is as follows:

- Be single point contact for the media to receive public information from the college.
- Collect all the news of the events in the college.
- To archive the media coverage of the college activities/events/notifications.
- Handles the photography and video editing for all major programs.
- Media center equipment office is available for students, faculty and staff to check outcameras, mics, audio recorders, lights.
- Media Center helps not only students working on class projects but anyone who need assistance starting a project.
- It is responsible for the Social Media Management and also to bring out the institute News Letter.
- It manages the institute's YouTube channel for events and hosts all the webinars and live streams of convocations and other significant events.
- Extensive press coverage for all the events on the campus, and the reports are shared with all the leading newspapers.
- Coordinating with IQAC in assisting with all the NAAC related assignments, e-content development, uploading on the web portal for the benefit of the students.
- Encouraging students to become reporters, photographers, and video editors by givingthem hands-on training, thereby creating job opportunities for the students.

Media Centre

Audio visual centre

Audio visual centre

The audio-visual centre makes sure that every student, regardless of their background, is treated equally in terms of the tools and learning strategies that they have access to, making the entire class susceptible to the successful outcomes of the faculty's diligent work. The students receive instruction in accent neutralisation, a stronger comprehension of phonetics, and a variety of other practical skills like interview and presenting techniques. Lessons don't just cover academic language; students are also encouraged to participate in group discussions, perform plays that entail role-playing, and give presentations as a way to demonstrate and develop their skills in practise. In terms of placements and competitive tests, the lessons that the students learn from these activities are quite helpful to them. The ultimate goal is to develop these kids into assured speakers, writers, and leaders. They are able to translate these talents into practical ones, which gives them much greater self-assurance in their professional disciplines, their line of work, interpersonal communication, and daily communication. These exercises are intended to increase students' proficiency in the English language and guarantee that they graduate with the self-assurance needed to communicate in the modern world.

Lecture Capturing System (LCS)

- Institute provided Desktop/Laptop, Headsets and Webcams to capture the Lectures and generate e-content.
- Institute subscribed Microsoft teams for online classes and recording.
- Installed open-source tools including Open Broadcast Studio (OBS) to record, streaming and Open Shot, Shotcut, Auacity for video/audio editing.
- Staff use interactive board during the lecture

Lecture Capturing System (LCS)

Lecture on Pride and Prejudice –A novel by Jane Austin by Charu Chitra

Govt. K.R.G.PG Autonomous College Gwaliror
IQAC

Introduction

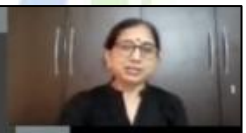

- Detection based on interaction with charged particles
- One of the earliest methods of detecting radiations was by luminescence they produced in certain substances
- The first attempt to count alpha particles by observing flashes of light or scintillations generated in diamond
- Detection and measurement of radioactive material in the workplace extremely necessary for the safety of individuals

Methods based upon excitation: Liquid scintillation counter, Autoradiography

Paper-I (Biochemical Techniques)

5

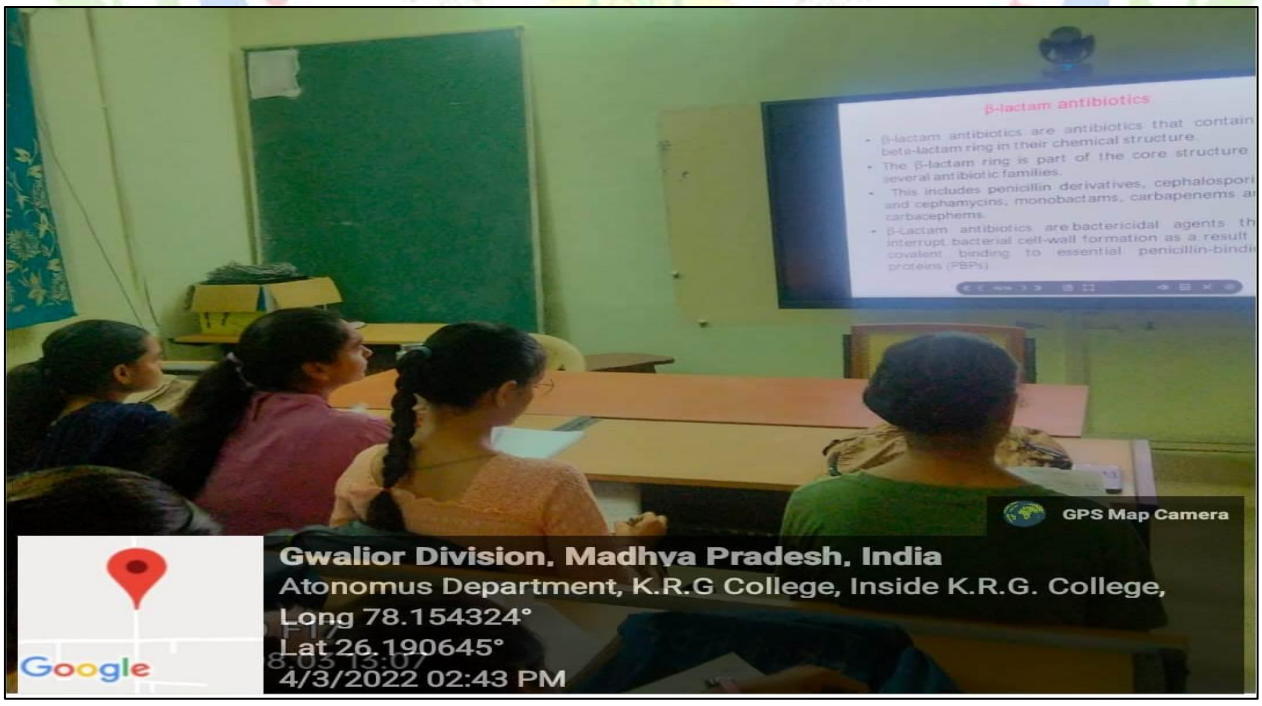

Examples of black Body Radiation in daily life

- In summers, people avoid wearing black /dark colored clothes to protect them from heat
- Welders usually use dark goggles to prevent damage to their eyes as they absorb the radiation to a large extent
- The opposite surface of a tava or kadhahi are blackened
- Black holes absorb nearly all the radiation falling on them

Lecture Capturing System (LCS)- Chemistry

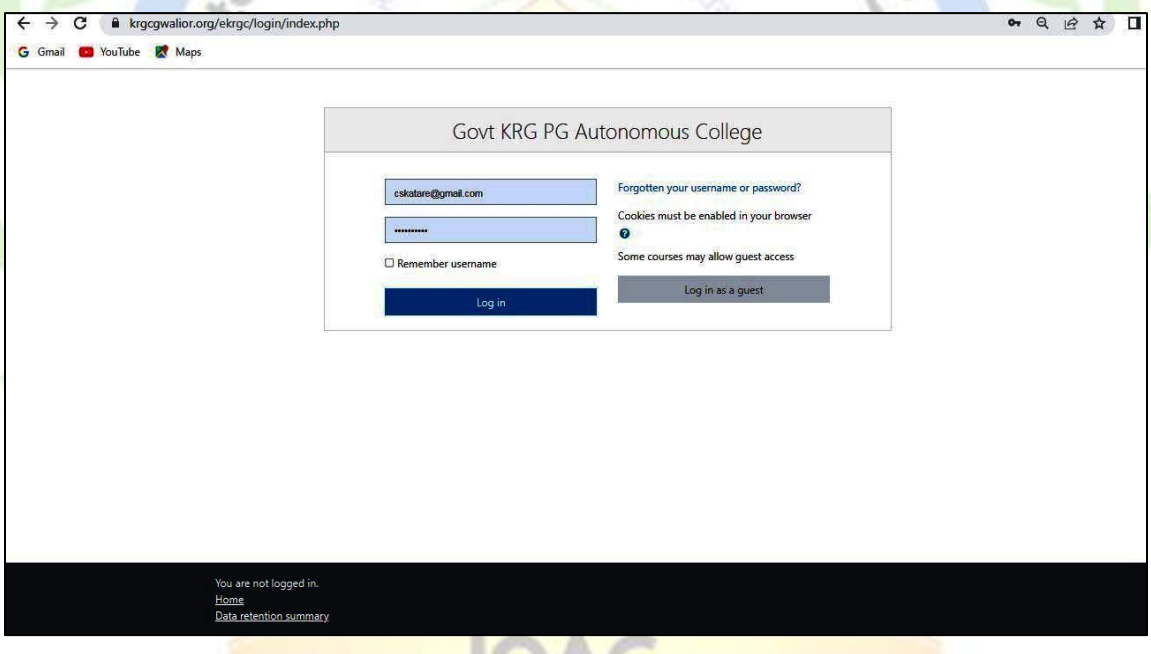

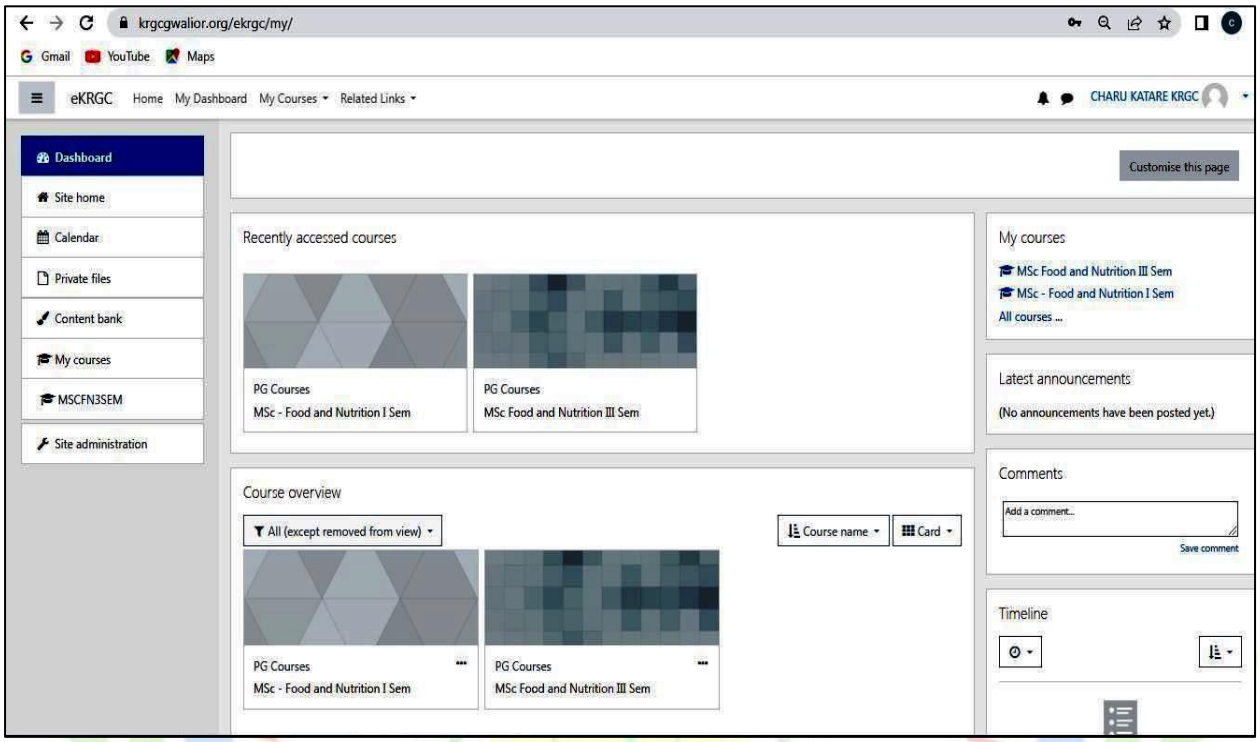

Mixing equipment and software for editing

The KRGC has established Media Centre and it facilitates the faculty members to create video lectures and other e-contents to be uploaded in the KRGC-LMS (Learning Management System). MediaCentre is equipped with studio viz CAM Corder, Editing Software, production equipment etc.,

1. Functional editing setup
2. Animation / Graphics workstations
3. E-Content Integration Workstation
4. Mixing Software
